SUBJECT: 7 New Regional Structure for 2018-2019

Effective June 28, 2018, the DeKalb County School District (DCSD) will move from 5 Regions to 7 Regions. This organizational effort will provide the district the opportunity to:

- Increase the number of schools demonstrating improved academic achievement and growth as defined by CCRPI
- Expedite completion of school-based work orders and identification of schools for deferred maintenance status
- Reduce the number of high needs schools
- Increase district and division support of students, teachers, and schools

Attached for your convenience are two documents:

- District MAP of the 7 new regions
- Schools List aligned under 7 new regions

We are excited to implement the new structure to support the DCSD Strategic Plan Goals:

- Goal Area I: Student Success with Equity & Access
- Goal Area III: Staff Efficacy & Excellence
- Goal Area V: Organizational Effectiveness & Efficiency

Thank you for your continued support!
